

## R E P O R T .

---

Since the last account we have been cutting plot at the 364-fms. level, to prepare for sinking the Engine Shaft deeper. We have opened on the lode for 12 feet wide, and find it to be worth for that width, and for the length of the Shaft (12 feet), £250 per fathom. In about a month we shall have cut all the necessary ground, and be prepared for sinking the Shaft below the 364.

The 364 West of Engine Shaft is worth £70 per fathom.

The 364 East of Engine Shaft is worth £80 per fathom. The winds under the 352 East of Engine Shaft is worth, for 9 feet long, £75 per fathom. This winds will shortly be holed to the 364-fms. level, and will lay open a very productive lode for stoping.

The 352 East of New East is worth £25 per fathom.

The 352 West of Old Sump is worth £40 per fathom.

The 338 East of New East is worth £40 per fathom.

The winds under the 314 East of New East is sunk 9 fathoms, and is worth, for 9 feet long, £12 per fathom. We shall shortly hole this winds to the workings above the 338, when we shall immediately drive the 314-fms. level Eastward over the long piece of productive ground which has been driven through in the 338.

The 314 West of Harriett's is worth £15 per fathom. The winds under the 295, five fathoms before this end, is sunk 7 fathoms, and is worth, for 9 feet long, £20 per fathom.

We have commenced to sink Man Engine Shaft below the 295 fms. level, where the lode is worth, for 9 feet long, £40 per fathom.

The winds under the 275 West of Man Engine Shaft has just been holed to the 295, and has laid open a good piece of tin ground for working, worth fully £25 per fathom.

### SOUTH LODE.

The 290 West of cross-cut is worth £10 per fathom.

The 290 East of cross-cut is worth £20 per fathom.

The 278 East of cross-cut is worth £25 per fathom.

The winds under the 266, just before this end, is sunk 7 fathoms, and is worth, for 9 feet long, £18 per fathom.

The winds under the 266 West of cross-cut is worth, for 9 feet long, £25 per fathom.

We have intersected this lode in the 242 cross cut, West of New East Shaft, where it is worth £15 per fathom.

### NEW LODE.

The 314 West of Harriett's cross-cut is worth £12 per fathom.

The 275 West of cross-cut is worth £20 per fathom.

The 275 East of cross-cut is producing a little tin.

The 248 West of cross-cut is producing good stones of tin, and seems likely to improve.

The 238 cross-cut South, at Stray Park, is driven 12 fathoms towards this lode.
